QSP/ QSD Training Course

**Mary & our Stormwater Specialists Team are
bringing monthly QSP/QSD Training to the NCBE.
If you can't make it, we'll bring your QSP/QSD
Training to your Team of 8 or more. We make your
Success our #1 Priority! *Anywhere in California**

Mary A. Larsen, is a California General Permit Trainer of Record (TOR), and is offering two courses to meet the requirements of the California State Water Resource Control Board approved training course as defined by the California Stormwater Quality Association (CASQA) for individuals intending to become Qualified SWPPP Practitioners (QSP), or Qualified SWPPP Developers (QSD).

This 2 and 3 day course is intended for anyone dealing with Stormwater whether or not they intend to take the exam and become a State Certified QSP or QSD. The QSP course is intended for inspectors and is focused more on the field application of the General Permit, while the QSD course is intended for those wishing to write and implement SWPPP's and is also a great source of information for those reviewing and certifying SWPPP's.
