

On Demand Training!

How does ODT work?

An "ODT" training service provides relevant and targeted training, certification, or education when you **NEED IT NOW!**

Classes can be organized quickly so you can quickly get your employees back to work. In addition, business demands require flexibility. This service provides greater flexibility and added value.

This **on-demand service** is a viable alternative to **in-house training** because it is designed for situations where only **one, two, three or four** people that need training. Importantly, this training can be very cost effective.

Whether you're in search of workplace safety training to meet OSHA compliance requirements, Update CPR/First Aid initial or update training or implementing a Safety Program ECA can help!

The best way to beat an OSHA citation is to never get one at all.

For that need it NOW training!
