On Demand training service provides relevant and targeted training "just-in-time" when a course is not available. Classes can be organized quickly so you can get your employees back to work.

All of the classes listed are available for On Demand Training. Call for the classes needed that are not listed on this form.

Hazard Communication—Six hour class

Select personal protective equipment and understand various chemical and physical hazards. Course meets OSHA requirements for employee training of MSDS, labeling and information.

Traffic Control / Flaggers—Five hour class

This certified course will instruct on the fundamentals of keeping workers safe on California Highways and roads, how to erect traffic control zones, handling emergency situations, and more!

Forklift Training—Four hour class

This "Train the Trainer" seminar will include a review of Cal-OSHA regulations, forklift inspections, forklift driver tests, and a written examination. Attendees will receive a training manual, inspection forms, driver proficiency tests, wallet cards, and all documentation to certify operators in-house.

HAZWOPER Refresher Course—Four hour class

Covers identification, evaluation and control of hazardous materials, safe handling procedures, proper disposal, site safety plans, permit requirements and more...

For more information on any of these courses or to set up a course not on this list contact Mary at ECA for price information. 546-5500 or mary@nceca.org
